PRINCETON TEC EOS**\$69.95***www.princetontec.com*

The waterproof EOS combines light weight, and a strong light to ensure no matter how dark it gets deep down in the canyon, you will be able to find your way. Four output modes provide plenty of versatility.

4

KONG HYDRABOT**\$59.95***www.kong.it*

The Hydrabot can be used with one or two ropes (9-11mm) and is easy to adjust whether you need less or more friction. The auto-locking device allows for emergency ascents (when used with a prussik knot).

5

SEAL SKINZ WATERBLOCKER SOCK**\$89.95***outdooragencies.com.au*

Featuring an in-cuff seal to help block water ingress over the top of the sock, the Waterblocker is a great way to keep your feet as dry as possible when you're splashing around in the dark.

**EDELRID ZODIAC
HELMET**

\$99.95
www.edelrid.de

Protect your noggin with Edelrid's new Zodiac. The ABS shell is super-tough and the EPS liner comfy. The closure set-up eliminates buckles at the chin, ear and neck, and the integrated torch clips rock!

13
EDELRID STATIC FLOAT

from \$345
www.edelrid.de

Edelrid's canyoning-specific floating rope is hard wearing and available in handy bright colours. The Static Float is available in 9mm (for double strand use only) and 11mm sizes and meets CE Static rope standard EN 1891 Type B.

15
OSPREY MUTANT

\$179.95
www.ospreypacks.com

Made of tough 420HD nylon and 900D polyester, the Mutant also has haul loops, a dual closure top throat, removable framesheet and can easily swallow a rope, your helmet and any other gear for a day deep in the canyons.
